Earth Day

Earth Day is on April 22 every year. People around the world help earth's environment.

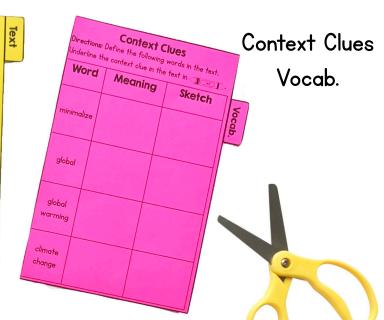

Earth Day began in 1970. People worried about the environment. They wanted to minimalize pollution. Gaylord Nelson began Earth Day. Nelson wanted to teach people about pollution. Many people supported Forth Day.

In 1990, Earth Day became global Onehundred-forty-one countries participated. Countries all over the world recycled.

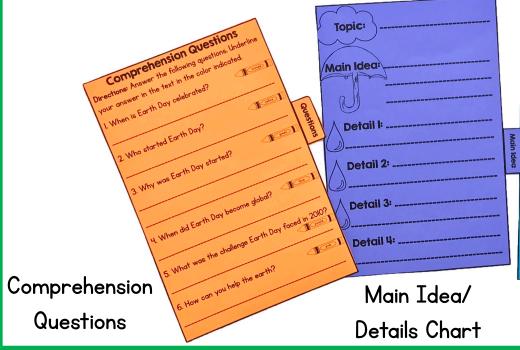

Earth Day 2000 one-hundred-eighty-four countries participated. Earth Day 2000 focused on global warming. The earth's temperature is increasing because of pollution. The internet helped bring people together for Earth Day 2000.

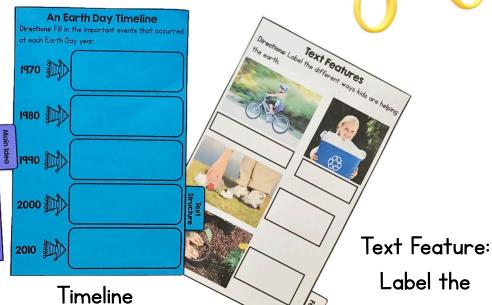

In 2010, Earth Day faced a problem. Some people said climate change didn't exist. Climate change means changes in earth's temperature, wind, seasons, and weather. Despite the problems, there was a world-wide tree planting project that continues to grow.

Caring for the environment is very importan
We can reduce our waste. We can reuse things. We can
recycle. This will help the environment on Earth Day and
every day.
