ABOUT LEXILE LEVELS

MagiCore Learning, LLC is a certified Lexile® Partner. These texts are officially measured and approved by Lexile and MetaMetrics® to ensure appropriate rigor and differentiation for students.

The Lexile Framework® for Reading measures are scientific, quantitative text levels. When the Lexile of a text is measured, specific, measurable attributes of the text are considered, including, but not limited to, word frequency, sentence length, and text cohesion. These are difficult attributes for humans to evaluate, so a computer measures them.

Common Core State Standards uses Lexile level bands as one measure of text complexity. Text complexity ranges ensure students are college and career ready by the end of 12th grade. Lexile measures help educators scaffold and differentiate instruction as well as monitor reading growth.

Grade Band	Lexile® Bands Aligned to Common Core Expectations
K-1	190L-530L
2-3	420L-820L
4-5	740L-1010L
6-8	1185L-1385L

Keep in mind when using any leveled text that many students will need scaffolding and support to reach text at the high end of their grade band. According to Appendix A of the Common Core Standards, "It is important to recognize that scaffolding often is entirely appropriate. The expectation that scaffolding will occur with particularly challenging texts is built into the Standards' grade-by-grade text complexity expectations, for example. The general movement, however, should be toward decreasing scaffolding and increasing independence both within and across the text complexity bands defined in the Standards."

After taking so long to clean his room this morning, he was mad that he hadn't been able to spend time outside on such a nice Saturday. His friends had planned a game of football, and he hadn't been involved in a single play. Alex had missed the whole thing. His days were busy with studying, homework, and soccer practice, and he felt like he rarely saw his friends.

Fall Surprise

It was a cool fall day. The leaves were falling. It was one of Maggie's favorite times of year. She was busy picking which Halloween costume to wear. She had a witch hat and a broom. She had cat ears and a tail. She had a monster mask. She looked at each one. She wondered what her friends would wear.

Her kitten purred at the door. She let her out. She watched her go down the hall.

DURING READING: Where do you predict Maggie's kitten was going?

"Where was she going?" she thought. She usually was by Maggie's side. She turned around to look at her costumes again. She was too excited to waste any time.

The wind blew the trees. It was getting dark.

The doorbell rang. The wind was strong. She noticed how dark it was outside through the window. Maggie ran downstairs. She got her bag and shoes. She turned out the lights.

Making Predictions

She opened the door. The wind hit her. She saw leaves blowing. Her friends were waiting. Maggie was happy.

Kids had masks on. Maggie and her friends began walking down the street. She saw something in a tree. It was staring at her. Her friends were talking. They kept walking to get candy. She looked up in the tree again. What was staring at her?

The wind blew. Then, they all saw what it was.

How to Teach Predicting

What is predicting?

Making predictions is a strategy in which readers use information from a text (including titles and pictures) and their own personal experiences to guess what they are about to read.

Why is predicting important?

Predicting requires the reader to actively think ahead and ask questions. It also allows students to understand the story better by recalling details, making connections, and drawing conclusions.

Making predictions is also a valuable strategy to improve reading comprehension.

Visuals

- Visuals are powerful tools to help students remember a skill or strategy. The “fortune cookie” visual is a great tool to teach kids predicting because it is a fun way to remember what predicting means.
- Process anchor charts are also helpful visuals for students to refer to, and eventually internalize the steps they can use to make predictions.
- Graphic organizers help students use the process for predicting, while organizing their thoughts.
- The ultimate goal is to provide enough practice so that students can predict internally, without any visuals or prompting.

Differentiation

Use more visuals, especially graphic organizer, to model story retellings. Have students practice predicting in small groups. Students who need more support should use these visuals until they can progress to speaking or writing about their predictions.

Predicting Paper Fortune Telling Cookies

Fortune telling cookies are a great visual to help students connect to predicting.

How to Make a Predicting Fortune Telling Cookie:

1. Print the circle template on colored or printed paper.
2. Print the prediction question prompts on white paper.
3. Cut out the circle template and prompts.
4. Fold the circle template in half.
5. Place the prompt inside the fold.
6. Paste the tops of the circle template together.
7. Fold again into fortune cookie shape.
8. Pull out the prompts to ask students to predict prompts before, during, and after reading stories.

Abby's Big Day

Abby woke up excited, but also nervous.

Today was the day she had been waiting for.

She ate her breakfast and got ready. Her dad smiled at her as they got into the car.

There was a lot of traffic, so Abby had time to think. She thought of her big moment and it made her smile. She felt better.

DURING READING: Where do you think Abby and her dad are going?

"How are you doing?" her dad asked.

"I'm okay," Abby said, smiling.

"You're going to do great!" he told her.

They passed many cars and many people. There were tall, shiny buildings. The sidewalks were crowded, and people waited at traffic lights. People were wearing hats and gloves.

Lights lined the streets.

Making Predictions

Abby looked at the clock in her dad's car. She didn't want to be late. She needed to be ready.

Her dad began tapping his fingers on the steering wheel.

"How far away is it?" Abby asked him.

"Just a few minutes," he said. "We'll be there soon."

Abby pictured herself during her big moment. She zipped up her coat.

She looked out the window. A few of her friends were on the sidewalk. They were walking to the building. What a big day it would be for them!

Her dad saw them too.

"Go ahead. Get out here, Abby. I'll park the car. Then I'll come in," he told her.

"Okay," she said, opening the door.

Her dad smiled and waved. He pulled away. She walked towards her friends. Suddenly, she remembered she left her bag in the car.

AFTER READING: What was in Abby's bag? Why do you think this is important?

Making Predictions

Answer the following questions. Underline the text evidence in the color shown.

1. Which predictions could you make before reading this story? (Choose all that apply.)

- a. Abby is feeling nervous.
- b. Abby's father is feeling worried.
- c. Abby is going somewhere with her father.
- d. Abby has somewhere important to go.

2. Where do you think Abby is going? Why?

Handwriting practice lines for question 2, consisting of three sets of solid top and bottom lines with a dashed middle line.

3. Which word best describes how Abby feels.

- a. Brave
- b. Nervous
- c. Smart
- d. Hard working

4. PART A: What might be in Abby's bag?

Handwriting practice lines for question 4, consisting of three sets of solid top and bottom lines with a dashed middle line.

PART B: Why do you think this?

Handwriting practice lines for question 4, consisting of three sets of solid top and bottom lines with a dashed middle line.
