Making Treats

Name: Madeline Bachse Date: 3/8

Kento felt nervous. He was moving into a new foster home. He had met Mrs. Diaz once before. She seemed nice, but he still felt worried.

The house was neat and cozy. Mrs. Diaz had measuring cups and bowls out on the counter.

"Come help me make some treats," she said.

At first, Kento just watched. Mrs. Diaz poured flour and oats into the bowl. She cracked some eggs into the bowl. She added water.

"Here, just poke your hands in, and squeeze it all together," she told Kento.

The mixture felt cold and sticky. It was kind of fun to squish through his fingers. Kento began to have fun.

Together, they rolled out the dough. They used a plastic cutter to cut it into circles. The treats took a long time to bake.

When the treats were done, they felt very hard. Kento had to wait for them to cool. Then he took a bite. Yuck! They were the worst he'd ever tasted.

"Oh, honey," said Mrs. Diaz. "These aren't cookies for us to eat. They're treats for Sassy and Sparkle!"

Kento laughed. He gave each of the dogs a treat. "These aren't cookies for us to eat," said Mrs. Diaz.

Rover Takes Over

The red truck pulled up.
"Here comes a new friend," said the pig.
"I hope he's nice," said the sheep.
The door opened. Out jumped Rover.
"He looks like fun," said the pig.
"Let's go meet him," said the sheep.
They came out of the barn. Rover ran to them. He barked and barked. They ran back to the barn. Rover did not play with them. He was not fun.

At night, Rover barked and barked. He was chasing a fox!

"I'm glad we have Rover," said the pig.

"He is a good guard dog," said the sheep.

TEST: Whose Kitten?

Tia lived in a tall apartment building. **One day, she saw something odd in the lobby. It was a small orange kitten.**

A small kitten did not belong in the lobby. Tia opened the door outside. A noisy bus whizzed by. Horns honked. A dog walker passed by with lots of dogs. The kitten did not want to go outside.

Tia called to the kitten. It did not come. **It seemed afraid.** Tia took a cracker out of her backpack. The kitten could smell the cracker. He came to Tia and ate it.

The kitten was hungry. His fur was dirty. He had a black collar with a little bell. There was no name tag on it.

Tia picked up the kitten. She brought him to her apartment. "What a sweet little guy," said Tia's dad. "Can we keep him?" asked Tia's brother. **"No way," said Tia's mom.** "We will wash and feed him. Then we will find his owner."

When the kitten was clean and fed, **Tia took his picture. Her dad made signs to hang up. It showed the kitten. It had Tia's phone number on it.**

Soon, Tia's family got a phone call. It was the kitten's owner. **He had been so worried.** He came and picked up his kitten.

This resource also includes TWO tests with different Lexile Levels for student assessment.

ABOUT LEXILE LEVELS

MagiCore Learning, LLC is a certified Lexile® Partner. These texts are officially measured and approved by Lexile and MetaMetrics® to ensure appropriate rigor and differentiation for students.

The Lexile Framework® for Reading measures are scientific, quantitative text levels. When the Lexile of a text is measured, specific, measurable attributes of the text are considered, including, but not limited to, word frequency, sentence length, and text cohesion. These are difficult attributes for humans to evaluate, so a computer measures them.

Common Core State Standards uses Lexile level bands as one measure of text complexity. Text complexity ranges ensure that students are college and career ready by the end of 12th grade. Lexile measures help educators scaffold and differentiate instruction, as well as monitor reading growth.

Grade Band	Lexile® Bands Aligned to Common Core Expectations
K-1	190L-530L
2-3	420L-820L
4-5	740L-1,010L
6-8	1,185L-1,385L

Keep in mind when using any leveled text that many students will need scaffolding and support to reach text at the high end of their grade band. According to Appendix A of the Common Core Standards, "It is important to recognize that scaffolding often is entirely appropriate. The expectation that scaffolding will occur with particularly challenging texts is built into the Standards' grade-by-grade text complexity expectations, for example. The general movement, however, should be toward decreasing scaffolding and increasing independence both within and across the text complexity bands defined in the Standards."
