

ABOUT LEXILE LEVELS

MagiCore Learning, LLC is a certified Lexile® Partner. These texts are officially measured and approved by Lexile and MetaMetrics® to ensure appropriate rigor and differentiation for students.

The Lexile Framework® for Reading measures are scientific, quantitative text levels. When the Lexile of a text is measured, specific, measurable attributes of the text are considered, including, but not limited to, word frequency, sentence length, and text cohesion. These are difficult attributes for humans to evaluate, so a computer measures them.

Common Core State Standards uses Lexile level bands as one measure of text complexity. Text complexity ranges ensure students are college and career ready by the end of 12th grade. Lexile measures help educators scaffold and differentiate instruction as well as monitor reading growth.

Grade Band	Lexile® Bands Aligned to Common Core Expectations
K-1	N/A
2-3	420L-820L
4-5	740L-1010L
6-8	1185L-1385L

Keep in mind when using any leveled text that many students will need scaffolding and support to reach text at the high end of their grade band. According to Appendix A of the Common Core Standards, "It is important to recognize that scaffolding often is entirely appropriate. The expectation that scaffolding will occur with particularly challenging texts is built into the Standards' grade-by-grade text complexity expectations, for example. The general movement, however, should be toward decreasing scaffolding and increasing independence both within and across the text complexity bands defined in the Standards."

Mom's Unique Vase

Directions: Read the passage. Look for words with affixes.

Crash! I knocked over Mom's favorite vase while playing football in the house. It shattered into a million minuscule pieces on the ground.

"Oh no!" I cried. "Mom forewarned me something like this would happen if I played too roughly in the house. She will never permit me to sleep over at my friend's house this weekend! How will I make this up to her?"

I knew Mom was going to be mad. The first thing I would need to do is show her I felt remorseful for my mistake. I wrote her a letter admitting that I broke her vase by playing football in the house. I apologized, but I knew that wouldn't be enough.

After, I tried to put the vase back together with adhesive. "These pieces are too small to try to glue back together," I thought to myself. "I will need to use all my allowance for the next year to replace this vase for Mom!"

I searched a catalog to see if I could find a vase just like hers. There were many vases that were similar, but none were quite like Mom's vase. Mom's vase was very unique. Instead of being round like most vases, it was shaped like a polygon with multiple sides. The top opening was not a full circle, but a semicircle.

"This is going to be hard!" I worried. "How will I ever find a vase just like Mom's?"

I reached out to my art teacher to see if he knew where I could find such a unique vase to replace Mom's broken vase.

"Have you thought about making a new vase?" he asked me. "No, that didn't occur to me," I said. "Can you help me?"

He told me he was offering semiprivate art lessons for two or three people and invited me to attend.

When Mom got home, I gave her the apology letter I drafted. I made sure not to omit any details about the truth. I admitted that I was playing football in the house even though she told me not to, and I broke her vase. I explained my plans to make her a new vase.

Mom was a little sad, but she appreciated that we had a dialogue where I explained what I did wrong and showed her how I would fix my mistake. She was actually very proud of me! But I did not get to sleep over at my friend's house.

It will take a few weeks before Mom's new vase is finished, but I hope she will love it as much as she loved the original vase.
