Dreidel

Dreidel in Yiddish means "spinning top". The four-sided pointed top is usually made from wood or plastic. It is used to play with during Hanukkah. Each side has a letter that has special significance to the Hebrew religion.

You also need something to "bet" to play the game. Traditionally, gelt (gold coins) were used as a wager. However, it has become custom to use chocolate coins or other small tokens, such as raisins, small toys, etc.

Nun = nothing
Shin = put in
Hey = half
Gimmel = everything

Describe how to win a game of Dreidel.

How does a player lose the game?

Let's Explore!: Jerusalem

Jerusalem is one of the oldest cities in the world that people have lived in continuously. It is important to many major religions, including the Jewish, Christian, and Islamic faiths. There are about 1204 synagogues, 158 churches, and 73 mosques within the city.

Jerusalem is the capital of both Israel and Palestine, under their laws. However, most other countries disagree. Most countries have their embassies with Israel in Tel Aviv. Jerusalem is about 40 miles east of the Mediterranean Sea. It is a hilly city with many valleys around it. Hebrew is the country's official language.
