OPERATIONS

Name: _____ Date: _____

The grids show multiplication problems with two decimals as the factors. The grids are divided into hundredths. What are the multiplication problems? Solve them.

1. 

2. 

I AM FEELING _____ ABOUT THIS LESSON.
CIRCLE YOUR RESPONSE.

Confident-I got it!
Pretty good-but I need more practice.
Unsure-I want to meet with you.

5.G.A.1

GRAPH ON COORDINATE PLANE

Write the numbers for the x and y axes. Plot the ordered pairs on the coordinate plane and connect them with lines to form polygons. Name the polygon.

1. (0, 2), (2, 2), (2, 0), (0, 0) ●

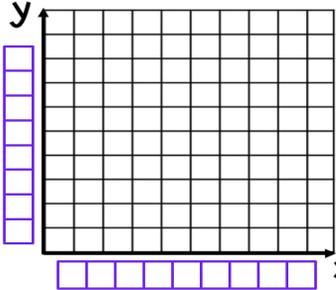

The polygon is a

2. (5, 3), (9, 4), (7, 6) ●

The polygon is a

3. (3, 8), (8, 8), (4, 10), (7, 10) ●

The polygon is a

I AM FEELING _____ ABOUT THIS LESSON.
CIRCLE YOUR RESPONSE.

Confident-I got it!
Pretty good-but I need more practice.
Unsure-I want to meet with you.

HOW TO USE EXIT TICKETS

I love using exit tickets for assessment because they are:

- Short and quick for students to complete.
- Easy to grade and provide valuable student data.

I like to use exit tickets throughout the unit to monitor student understanding of each skill. To use them at the end of a lesson, give each student an exit ticket and allow him or her to read and answer the corresponding questions independently. Collect the exit tickets, assess, and use the data to determine if your students need reteaching, more practice, or have mastered the skill.

There are four exit tickets for each skill. Each subsequent exit ticket is more challenging. I recommend you differentiate by using the exit tickets based on each student's level of understanding.

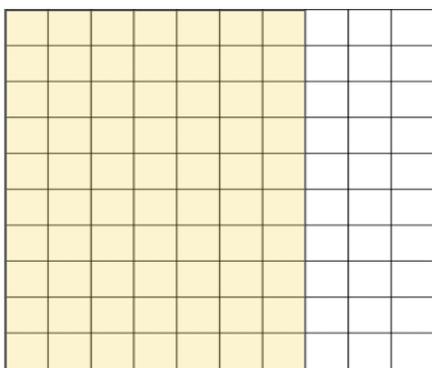

If you have a more advanced student or class, you can use the exit ticket as a pre-assessment. This will help you determine if students need explicit instruction in a particular skill or are ready to move on. If only a few students need explicit instruction, you can teach/reteach in small groups.

5.NBT.A.3

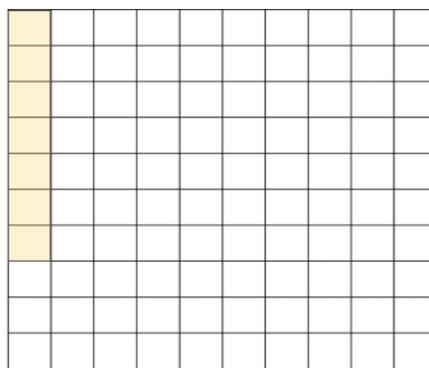

PLACE VALUE SYSTEM

Represent the decimals on the grids. Then compare the two numbers using $<$, $>$ or $=$.

0.7

$>$

0.07

I AM FEELING _____ ABOUT THIS LESSON.
CIRCLE YOUR RESPONSE.
