4 Reading Challenges

Challenge #2

1. Read the fiction passages and answer the questions.
2. Use your answers to melt the ice monster.
3. Take a picture of the ice monster to show your family. Keep your camera out... the ice crown is nearby!

1. The Promise of a Seed

A shovel cuts through sun-warmed soil, rich and dark, ready to receive the promise of a seed.

A tiny buried treasure, each seed carries the hope of becoming something greater than its origins.

With sky tears and sun hugs, roots take hold. Green bursts free from the darkness.

Each push upward is a victory. Each leaf unfurled is an exploration into being more.

Flowers bloom, their soft petals painting the world in scented rainbows and bee stripes.

Food develops from the buds. Mother Earth provides. Animals and humans delight in her bounty.

Tending a garden nurtures the body, settles the mind, and connects the soul to the promise of a seed.

1. Reread the third stanza of the poem.
*With sky tears and sun hugs, roots take hold.
Green bursts free from the darkness.*

What is the author referring to in this stanza?

- a. Seeds can grow in darkness without the sun.
- b. The sky is crying because the seeds are in the soil.
- c. Rain and sunshine help the seeds grow up out of the soil.
- d. Springtime is here, and it's not dark anymore.

2. Which of the following lines from the poem is an example of personification?

- a. "...their soft petals painting the world in scented rainbows."
- b. "Tending a garden nurtures the body."
- c. "Each push upward is a victory."
- d. "Animals and humans delight in her bounty."

3. Reread the second stanza of the poem.
A tiny buried treasure, each seed carries the hope of becoming something greater than its origins.

What is the author saying in this line?

- a. Sometimes large seeds don't grow into plants, but small seeds do.
- b. Some seeds want to grow bigger and better than other seeds, so they compete.
- c. Seeds have small pieces of gold hidden inside of them.
- d. Seeds are small and don't look like much, but they can become something big, beautiful, and nutritious.

Sally Ann Thunder Ann Whirlwind

When Sally Ann Thunder Ann Whirlwind was born, she announced to her family, "I'm Sally Ann Thunder Ann Whirlwind, and I'm amazing!" She went right on to prove it by running faster than all her older brothers, racing bobcats, arm wrestling the strongest men, and outsmarting bears. Not only was Sally Ann able to do all these incredible things, but she was also the sweetest and kindest person you ever wanted to meet.

One day Sally Ann came across Davy Crockett, whose head was stuck in a tree. Sally Ann immediately knew who he was because everyone knew the famous pioneer Davy Crockett. He was amazing, too. Fast as lightning, she rounded up six rattlesnakes and tied them together to create a lasso. She looped that lasso over a tree branch and gave a hard pull until Davy's head was free.

"I can do anything," Sally Ann declared. "I can blow out the moonlight and carry a steamboat on my back!"

Davy believed her. He also fell hopelessly in love with Sally Ann Thunder Ann Whirlwind. When he asked around about her, people told him about the incredible things Sally Ann had accomplished.

"She wears a hornet's nest as her Sunday-best hat," the preacher said.

"She dances with bears," the schoolteacher said.

"She's so funny that she can laugh the bark right off a tree," Sally Ann's best friend said.

All these tales only made Davy fall deeper in love with Sally Ann. He put on his best raccoon hat and went to her cabin. "Sally Ann, you are amazing. Will you go on a date with me?"

"I would love to," Sally Ann said... right before she wrestled a panther that was about to eat Davy. The couple dated happily, and Sally Ann taught Davy how to be brave.

1. A Dene Legend of the Seasons

When people and animals first roamed Earth, winter stretched on for all twelve months of the long year. Enormous, moving layers of ice and snow blanketed most of the land, making it impossible for anything to flourish. No water flowed because lakes and rivers were frozen solid. The people and animals were cold, and they feared they would not survive much longer in this arctic environment.

One frigid day, the first people were out hunting, and they discovered a large bear with a sack around its neck.

"What is in that sack?" one of the hunters asked the bear.

"It is packed with summer warmth and bright sunlight," the bear growled.

The people instantly craved what was in that sack because it could mean an end to the harsh conditions on Earth. "Let us trade you something for your sack," a hunter pleaded.
