

4th & 5th Grade

Paired Fiction & Nonfiction

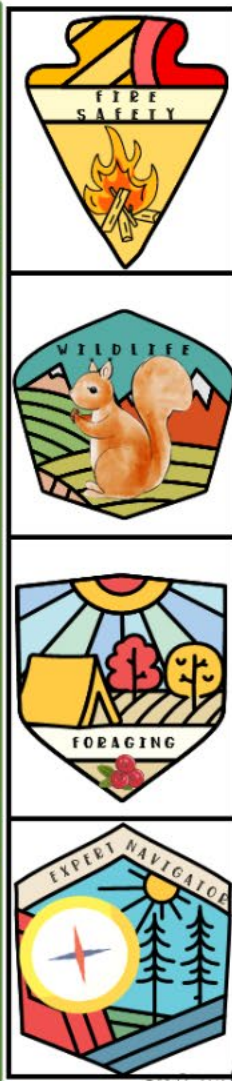

Let's Go Camping
Escape Room

PRINTABLE • GOOGLE • WEBSCAPE™

The great outdoors! Do you have what it takes to rough it, camp out, pitch your tent, and survive anything nature throws at you? Well you'll find out today, scout! Earn all four badges to complete your set as we make the hike to our campsite. As you earn your badges, cut and paste them onto your hiking backpack!

Adventure Awaits!

Students won't realize they are practicing reading comprehension skills! They will be immersed in the storytelling and our original videos as they complete reading comprehension challenges.

1.

The Magic of Words

Some people can sing or dance, and others are athletes. Some perform heroic deeds. Being skilled in business is a talent for some others.

And then there are those of us who play with words. I've always enjoyed words and the magic they possess. When one word builds meaning, they have the power to brighten a day or breakthroughs, create happily ever afters, and develop political institutions, and governments. When followed up with actions, our dreams.

But words also harm.

They tear into freedom and leave it in shreds. They pass through hearts like the separation where there is and reading eyes. Words have

In It Together

Boris wiggled his way up onto an ice floe. It was getting tougher these days to find a free patch of space on the sheets of floating ice. His fellow crab-eater seals often fought over the disappearing ice in Antarctica, and it worried Boris. He remembered a time when the ice wasn't so scarce, and the water was much colder. His favorite food, krill, used to be abundant in the seas, too. Now he often felt hungry when he didn't get enough.

"Hey, Boris," his buddy, Dobs, said as he slithered over to him. "Did you see the ship that arrived today?"

"Ship? What ship?" Boris tried to keep informed whenever the humans made a trip to Antarctica. He always found them so interesting with their bulky coats, strange equipment, and curious stares. They tended to arrive during the part of the year that had the most light, not when Antarctica was dark for months.

Dobs had figured out that the humans were called *scientists*, and they visited the continent to study things. Sometimes Boris hung out near their camps, hoping to be the subject of their research. If he caught their interest, they'd take pictures of him and talk excitedly about the "physical characteristics of crab-eater seals," or the "social behaviors of *lobodon carcinophagus*," a fancy science word for the type of seal Boris was. They always

knew the names of
ing to the scientists.

The Magic of Words

Some people can sing or dance, and others are athletes. Some people invent things, while others perform heroic deeds. Being skilled in business is a talent for some, but working with their hands appeals to others.

And then there are those of us who play with words.

I've always enjoyed words and the magic they possess. When one word chases another, and together they build meaning, they have the power to brighten a day or deliver important news.

3. Which of the following sentences from the passage titled, "The Magic of Words," supports the author's statement that words can harm?

"When one word chases another, and together they build meaning, they have the power to brighten a day or deliver important news."

"Words have the muscle to beat down the spirit and create separation where there should be unity."

"When followed up with actions, words can make the world we all wish for in our dreams."

"You take what you dream, what you think and you speak, add love from your heart with a plan from the start, and it can be whatever you wish."

Google Slides

1. Read the sentence from the passage.

"Well, come on! Boris slipped back into the ocean, eager to *collobrate* - another word Dobs had taught him from the scientists - with the humans?"

Which of the following words is Boris most likely intending to use instead of the underlined word in the sentence? ☐

- a. Corroborate
- b. Calibrate
- c. Collaborate
- d. Coronate

2. What adjectives best describe the continent of Antarctica? ☐

- a. Windy, dry, dark
- b. Cold, windy, bright
- c. Dry, windy, cold
- d. Cold, dry, warm

3. How are the two passages similar? ☐

- a. Both passages feature a seal named Boris.
- b. Both passages use first person narrative.
- c. Both passages explore several kinds of wildlife living in Antarctica.
- d. Both passages mention the declining number of krill in the waters around Antarctica.
