Nose

The interface features a central illustration of a vampire bat with its wings spread. Three red dashed boxes with arrows point to the wings, the mouth, and the nose. A red button labeled 'SUBMIT' is at the bottom center, and a 'REVIEW DIAGRAM' button is at the bottom left. A small laptop icon with a bat on its screen is in the top right corner.

INTERACTIVE ACTIVITIES & QUIZZES

question 1

How do the special sensors in a vampire bat's nose help it?

A The sensors help them smell cows and pigs from far away.

B The sensors detect heat from blood vessels so they know where to bite their prey.

C The sensors help them know which animals have a better blood type.

D The sensors help them find insects to eat in the dark.
