## The Season of Spring

Spring is one of the four seasons. It comes after winter and before summer.

When spring comes, the weather gets warmer. This means we can play and need heavy coats. We see lots of flowers blooming. Blooming means the flowers are growing. These flowers are so colorful! We see red, yellow, blue, and many other colors.

Spring is also a time when animals become very active. Birds sing in the trees. Baby animals, like bunnies and ducks, are born. Bunnies are baby rabbits.

We also see a lot of rain in spring. Rain helps the plants and flowers grow. After the rain, we can see a rainbow. Rainbows have many beautiful colors.

Spring is a time of new beginnings. It's a time when everything starts to grow again.
