Answer Questions
200 points

The ocean is a vast and diverse ecosystem. Covering over 70% of the Earth's surface, it is home to thousands of species of marine life. The ocean is not just important for the creatures that live in it but also for humans. It provides food, regulates the Earth's climate, and is a source for recreation and inspiration. The health of the ocean is crucial for the overall health of our planet. Unfortunately, issues like pollution and overfishing pose serious threats to this vital ecosystem.

PASSAGES

Main Idea
400 points

Tornadoes: Power and Fury

Tornadoes are violent storms that can cause immense destruction in minutes. They form from severe thunderstorms and are known for their powerful, spinning winds. Tornado Alley in the United States is particularly famous for its frequent tornadoes. These storms can lift cars, destroy buildings, and uproot trees.
