OPTIONS FOR TEAMS

Inferencing  
400 points

Decomposers, such as fungi and bacteria, play a crucial role in ecosystems. They break down dead plants and animals, returning essential nutrients to the soil. This process supports the growth of new plant life and maintains the balance of the ecosystem. Without decomposers, dead matter would accumulate, and nutrients would not be recycled, leading to unbalanced and unhealthy ecosystems.

PASSAGES

Integrate Info.  
300 points

How do these passages together provide a comprehensive understanding of the American Revolution's causes and the impact of its leaders?

- a. By highlighting the strategic military tactics used in the revolution.
- b. By detailing the contributions of key figures to the revolution's success.
- c. By comparing the American Revolution to other historical revolutions.
- d. By explaining the political and economic reasons behind the revolution.

## Discovery of Dinosaurs

The discovery of dinosaurs has fascinated scientists and the public for centuries. The first recognized dinosaur fossils were discovered in the early 19th century, although people had been finding dinosaur bones for thousands of years without understanding what they were. Scientists have since used these fossils to piece together the appearance and habits of these ancient creatures, offering a glimpse into a world millions of years before humans.

# THIS RESOURCE + 1000S MORE!

you'll  magiccore academy!

## What's INSIDE?

HUNDREDS of digital, interactive resources for your entire class.

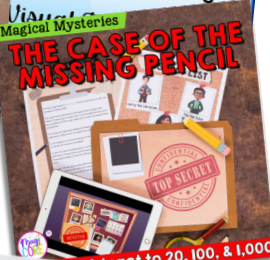

**MagicCORE**  
— ACADEMY —

- Assign directly to your students
- Easily differentiate for your class
- Teacher portal to view student responses
- Self-correcting for immediate student feedback
- Audio options
- Engaging animation

### Resources include:

- Escape Rooms
- Mini Lessons
- Virtual Field Trips
- Games
- Interactive Readers
- Magical Mysteries
