SELF CORRECTING, INCLUDES REPORTING CERTIFICATE

17 Points, Lines, and Angles

Which of the following shows a line segment?

a.

18 Points, Lines, and Angles

Which of the following is a ray?

c.

d.

25 Points, Lines, and Angles

Which feature does the two-dimensional figure shown have?

a. Right Angles c. Line Segments
b. Rays d. Obtuse Angle

26 Points, Lines, and Angles

Which of the following is a line segment?

a.

b.

27 Points, Lines, and Angles

Which feature does the two-dimensional figure shown have?

a. Parallel Lines c. Obtuse Angle
b. Right Angle d. Straight Angle

28 Points, Lines, and Angles

Which of the following is a line segment?

a.

b.

INCORRECT

The correct answer is Square.

Points, Lines, and Angles

Which of the following is a right angle?

c.

d.

STANDARDS ALIGNED

29 Classify Two-Dimensional Figures

A pizza slice is shaped like a triangle with one right angle. What is this type of triangle called?

- a. Acute Triangle
- b. Obtuse Triangle
- c. Right Triangle
- d. Scalene Triangle

14 Classify Two-Dimensional Figures

A right triangle always has how many right angles?

- a. 0
- b. 1
- c. 2
- d. 3

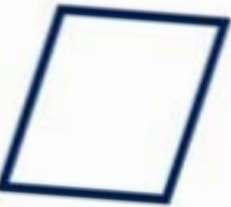

Classify Two-Dimensional Figures

Which of the following shapes has at least one pair of parallel lines?

- a. 
- b. 
- c. 
- d. 

11 Classify Two-Dimensional Figures

Which of the following shapes has one pair of parallel lines?

- a. 
- b. 
- c. 
- d. 

20 Classify Two-Dimensional Figures

Luis is designing a garden shaped like a parallelogram. Which is true about its opposite sides?

- a. They are perpendicular
- b. They are parallel
- c. They are congruent
- d. They are equal in length
